Dear Editors,

I would like to congratulate you for publishing the Sudanese Journal of Public Health on line. This initiative will facilitate access to your journal content and give it more visibility worldwide.

I would like also to inform you that the African Index Medicus is available on line at <http://indexmedicus.afro.who.int/>. This Regional database was developed by the World Health Organization, Regional Office for Africa and aims to facilitate access to health information carried out in Africa and by African researchers. More than 74 African Medical Journals are currently being indexed on AIM database.

The Regional Director of the World Health Organization has, through FAME (Forum of African Medical Editors), invited all the African Medical Journals to participate in the African Index Medicus.

I am writing to ask your authorization to integrate the Sudanese Journal of Public Health in the African Index Medicus database. This gives your journal more visibility at regional and international level and facilitates access to your published articles.

With my best regards

Mohamed ATANI

African Index Medicus

Dear Mr. Mohamed Atani,

Thank you very much for your contact and response. Our journal will strive to reflect public health issues in Sudan, Africa and worldwide. The decision on OA was taken on the grounds of facilitating access to information and research on health issues in Sudan. We are a member of FAME and I have attended their last meeting in Egypt.

I am pleased to convey to you our approval and authorization for you to integrate our journal (Sudanese Journal of Public Health) in the African Index Medicus Database..

We look forward to collaborate with you

Best Regards

Editor

Sudanese Journal of Public Health

Dear Editors,

Thank you for your response. I would like to welcome you to the African Index Medicus. The Sudanese Journal of Public Health will be indexed and added to the African Index Medicus (AIM) database.

The AIM database is available on line at: <http://indexmedicus.afro.who.int/>.

Looking forward to our continued and fruitful collaboration

Regards

Mohamed ATANI
